CAREER VENTURE

BMS 8th grade students will be attending Career Venture on Thursday, May 3rd.

This hands-on career fair experience will provide students the opportunity to explore careers in each career cluster and link what they learn in school with the knowledge and skills they need for success in college and careers.

Bloomer School District Introduces Student Goal Setting Day

The start of the 2018-2019 School Year will look a bit different when compared to previous years. Rather than beginning the school year with open houses, the week prior to the first week of school, the District will be

using the first official day of school, Tuesday, September 4th, as a Student Goal Setting Day. This day will be mandatory for all students; however, students will not spend the whole day in classes.

The structure of this day will look different at each building. A specific time will be set aside for students and parents to meet with their teacher/advisor in a one on one or small group setting. This format will allow teachers/advisors to better get to know your student and set academic, social/emotional, and career goals for the upcoming school year. The goal setting approach is used in districts throughout the

area and is shown to be successful in helping build relationships and improve student learning outcomes. More information on the Student Goal Setting Day will be sent this summer.
